All Federal Benefits Will Be Paid Electronically

Source: U.S. Department of the Treasury, Financial Management Service

The U.S. Department of the Treasury soon will pay all federal benefit and nontax payments electronically. If you're applying for federal benefits, like Social Security or Veterans Affairs benefits, you must choose an electronic payment method at the time you apply for your benefit. If you are currently receiving federal benefit checks, you must switch to electronic payments by **March 1, 2013**.

- **Have a bank or credit union account?** Sign up for **direct deposit** to have your benefit payments go straight into your checking or savings account. You can count on your money being there on time, every time.
- **Prefer a prepaid debit card?** The **Direct Express**® Debit MasterCard® card provides another safe, low-cost alternative to paper checks for federal benefit payments. Funds on the **Direct Express**® card are FDIC-insured (up to the legal limit). Cardholders can make retail purchases, pay bills and get cash back. No bank account or credit check is required. There are no sign-up fees, monthly fees or overdraft charges. Some fees for optional services may apply.

If you do not choose an electronic payment option by **March 1, 2013**, or at the time you apply for federal benefits, you will receive your payments via the **Direct Express**® card so you will not experience any interruption in payment.

If you already receive federal benefit payments electronically, you do not need to take action. You will continue to receive your payment as usual on your payment date.
