SUBJECT: **Meeting Invitation – October 21, 2008**

In collaboration with the Illinois Department of Financial and Professional Regulation, Division of Professional Regulation, AMP invites you or any representative(s) from your school to attend a meeting during which I will describe and demonstrate a new testing format for the real estate broker examination. As you may know, the national portion of the IL broker examination will change from a multiple choice format to a simulation examination. The change in format will occur in early 2009, and we want to be sure that all instructors and school directors are informed about the new format.
