ONSITE INSTITUTIONAL PHARMACY

Pharmacy Self-Inspection Form

Illinois Law holds the Pharmacist-in-Charge (PIC) and all pharmacists on duty responsible for ensuring pharmacy compliance with all state and federal laws governing the practice of pharmacy.

The primary objective of this report, and your self-inspection, is to provide an opportunity to identify and correct areas of non-compliance with state and federal law. The inspection report also serves as a necessary document used by the Drug Compliance investigators during an inspection to evaluate a pharmacy's level of compliance. When a Drug Compliance investigator discovers an area of non-compliance, he or she may issue either a Deficiency Notice or a Notice of Non-Compliance. Both require a written response from the PIC. Identifying or correcting an area of non-compliance prior to a Drug Compliance investigator inspection may eliminate the receipt of a Deficiency Notice/Notice of Non-Compliance for that item.

Failure to complete this report by December 31st of each year may result in Disciplinary Action. (Section 1330.800)

NOTE: Neither the self-inspection nor a Drug Compliance investigator inspection evaluates your complete compliance with all Laws and Rules of the practice of pharmacy. Further, nothing herein shall constitute a waiver of IDFPR enforcement discretion or constitute compliance with all applicable Laws and Rules governing the practice of pharmacy. This report is not final agency action and is intended as guidance. This report is not intended, nor can it be relied upon to create any rights enforceable by any party in litigation or in any enforcement action brought by IDFPR.

225 ILCS 85/15.1 - Section 15.1 Pharmacy Working Conditions

Except in the case of an emergency, the following restrictions apply to pharmacies:

- The workday for a pharmacist, student pharmacist and pharmacy technician shall not exceed 12 hours including breaks;
- If a pharmacist has to work 6 continuous hours or longer in a day, he or she will be allowed to take one 30-minute uninterrupted meal break and one 15-minute break during the day;
- If a pharmacist has to work 12 continuous hours or longer in a day, he or she will be allowed to take one 30-minute uninterrupted meal break and two 15-minute breaks during the day; and
- A pharmacist who is entitled to a meal break cannot be required to work more than 5 continuous hours (So, a pharmacist who is required to work 6 hours or longer cannot be given a meal break during the last half hour of their shift).

An emergency occurs when a pharmacist, student pharmacist or pharmacy technician is required to work to minimize an immediate health risk to patients, as deemed necessary by the professional judgment of the pharmacist. If a pharmacy is staffed by two or more pharmacists, the pharmacists shall stagger breaks so that at least one pharmacist remains on duty during all times that the pharmacy remains open for the transaction of business. A pharmacy must keep and maintain complete and accurate records, in electronic or paper form, and in sufficient detail to show that, absent an emergency:

- Pharmacists, student pharmacists and pharmacy technicians have not been required to work longer than 12 continuous hours;
- Pharmacists are allowed to take one 30-minute uninterrupted meal break and one 15-minute break during the day, if he or she has to work 6 continuous hours or longer in a day;
- Pharmacists are allowed to take one 30-minute uninterrupted meal break and two 15-minute breaks during the day, if he or she has to work 12 continuous hours or longer in a day; and
- Pharmacists, who are entitled to a meal break, have not worked more than 5 continuous hours prior to being allowed to take the meal break.

If a pharmacy or a building where a pharmacy is located has a private break room, the pharmacist must be given access to the break room and be permitted to have breaks in that room. The pharmacy can close while the pharmacist is on break, but it is not required to do so. If the pharmacy does not close, the pharmacist has to remain in the pharmacy or establishment where the pharmacy is located during the break for any emergencies. If the pharmacy remains open:

- Pharmacy technicians and student pharmacists can continue duties that they are permitted to do;
- Only prescriptions approved by the pharmacist that do not require counseling can be dispensed; and
- If an approved prescription requires counseling, the person picking up the prescription can wait for the return of the pharmacist or can purchase the prescription and then the pharmacist must try to reach the patient or their

representative by phone at least twice to provide counseling and must document those attempts to contact the patient.
