VARIANCE

Pursuant to the authority granted to me by 68 Illinois Administrative Code 1380.320, I hereby grant a Variance to 68 Illinois Administrative Code 1380.310, which requires Professional Engineers to submit renewal documentation and pay certain renewal fees by the deadline of November 30, 2021. Such individuals are granted until February 28, 2022, to complete the renewal process.

This variance is granted based upon the transition to new data and operating systems utilized by the Illinois Department of Financial and Professional Regulation (“Department”), and the Department’s determination that certain licensees did not or may not have received notices and instructions concerning the required renewal via electronic mail during this period.

The purpose of this Variance is to ensure that Professional Engineers whose registrations would otherwise expire on November 30, 2021 do not experience an expired or lapsed registration, and are not required to take additional steps or pay additional fees to restore the registration, prior to February 28, 2022.

This Variance is in no way intended to waive or modify any other statute, rule, or regulation concerning the registration of Professional Engineers, nor to extend the active registration period beyond the expiration date for registrants otherwise required to be renewed by November 30, 2021. Licenses renewed through February 28, 2022, during the extended renewal period granted by this Variance, shall expire at the end of the ordinary renewal period designated by the relevant regulation applicable to the profession.

I have determined that the provision from which this Variance is granted is not statutorily mandated; no party will be injured by the granting of this Variance; and the rules from which this Variance is granted would, in this particular case, be unreasonable.
