The following sets forth standards for practicums, internships or equivalent supervised experience and the two years of supervised experience required for licensure pursuant to Section 10 of the Clinical Psychologist Licensing Act.

To meet the requirements for satisfactory supervised experience under this Act, the supervision must be performed pursuant to the order, control and full professional responsibility of a licensed clinical psychologist. The clients shall be the clients of the agency or supervisor rather than the supervisee.

Practicums, internships or equivalent supervised experience and the two years of supervised experience:

1. shall be experience obtained after enrollment in a doctoral psychology program;
2. shall involve the practice of clinical psychology as defined in Section 2(5) of the Act. Illustrative tasks are: assessing, diagnosing and treating individuals with mental, emotional, behavioral or nervous disorders or conditions, or individuals with developmental disabilities;
3. shall not be limited to repetitious and routine tasks which, although involving psychological activities, are at the pre-professional level. Tasks illustrative of pre-professional experience are: administering and scoring structured tests; conducting standardized interviews; collecting data; academic guidance counseling; and assisting in a laboratory or teaching situation;
4. shall not be supervised experience in which the supervisor receives monetary payment or other considerations from the supervisee or in which the supervisor is hired by or otherwise employed by the supervisee.

In addition to the requirements set forth above, the applicant's practicum (externship or clerkship) shall:

1. be part of the coursework in the doctoral program or be an equivalent 400 hours of coursework or training completed with a grade of satisfactory or better in a new area of competence approved by the Board prior to initiating the training;
2. involve the applicant in direct clinical psychology services to the client;
3. provide for personal supervision by a licensed clinical psychologist, licensed psychologist who is engaged in the practice of clinical psychology or by a person possessing the educational and experience qualifications necessary for licensure under the Act. Failure of the licensing examination disqualifies one as a supervisor;
4. be performed pursuant to the order, control and full professional responsibility of the supervisor who shall meet with the applicant face-to-face for a minimum of 40 hours;
5. be a minimum of 400 hours in duration. This 400 hours does not have to take place in a single setting;
6. not count toward the two years of supervised experience required for licensure.
To meet the requirements of internship in accordance with Section 1400.20 or equivalent supervised clinical experience in an organized health care setting pursuant to Section 10(5) of the Act and Section 1400.20(c) of the Rules, the internship or clinical experience shall, in addition to the requirements set forth above:

1. be an organized pre-planned training program (in contrast to supervised experience or on-the-job training) designed to provide the applicant with a pre-planned, programmed sequence of training experiences which includes documented goals and objectives. The primary focus and purpose is assuring breadth and quality of training/experience;

2. include a minimum of one hour per week of regularly scheduled, face-to-face individual supervision with the specific intent of dealing with health services rendered directly by the applicant. There must also have been at least two additional hours per week in learning activities such as case conferences including cases in which the intern was actively involved; seminars dealing with clinical issues; co-therapy with a staff person including discussion; group supervision, and additional individual supervision;

3. involve the applicant in direct clinical psychology services to the client (Section 2 of the Act) as a part of the training/experience;

4. be under the individual and personal supervision of a licensed clinical psychologist or a licensed psychologist who is engaged in clinical psychology whose license is active and in good standing (i.e., no disciplinary action in accordance with Section 15 of the Act);

5. be performed pursuant to the order, control and full professional responsibility of the supervisor;

6. include a minimum of 1750 hours completed within 24 months. The 1750 hours may not be completed in less than 50 weeks regardless of the number of hours worked per week.
   
   A) Full-time experience shall be at least 35 hours per week and shall be obtained in a single setting for a minimum of 6 months.
   
   B) Part-time experience will only be counted if it is 18 hours or more per week for a minimum of 9 months and is in a single setting.

7. be post-practicum (post-clerkship or post-externship) level;

8. the experience must be evaluated by the supervisor as satisfactory or better;

9. if experience takes place in a work setting, there should be a distinction between the regular work duties of the applicant and the internship or equivalent clinical experience;

10. may include both paid and unpaid experience obtained by the applicant.
Clinical Experience

To meet the experience requirements of Section 10 of the Act, the experience shall in addition to the requirements set forth above:

1. contain/include clinical psychology experience, at least one year of which must be post-doctoral. Practicum experience may not be counted toward fulfilling the 2 years of supervised experience.
   
   A. A year of experience is defined as 1750 hours obtained in not less than 50 weeks and completed within a 36 month period.
   
   B. Full-time work experience must be obtained in a single setting for a minimum of 6 months with at least 35 hours per week.
   
   C. Part-time experience will only be counted if it is 18 hours or more a week for a minimum of 9 months and is in a single setting.
   
   D. Post-doctoral experience may begin upon completion of degree requirements for the doctoral degree, if verification of the date of completion of the degree requirement, when different from the date of graduation, is certified to the Department by the appropriate administrative official of the applicant's educational institution.

2. be personally and individually supervised by a licensed clinical psychologist or a licensed psychologist who is engaged in the practice of clinical psychology whose license is active and in good standing (i.e., no disciplinary action in accordance with Section 15 of the Act). The experience must be performed pursuant to the order, control and full professional responsibility of the supervisor;

3. include a minimum of one hour per week of regularly scheduled, face-to-face individual supervision with the specific intent of dealing with health services rendered directly by the applicant;

4. be evaluated by the supervisor as satisfactory or better;

5. be obtained prior to the date of the examination. Applicants completing the required experience after the examination date will be considered for the next examination. All supervised experience completed prior to the application date shall be listed on the application in order to be considered;

6. may include both paid and unpaid experience obtained by the applicant.
